Dear Barry:

Thank you for the excellent workshop you did for us on Leadership Development and Teambuilding, using C.L.E.A.R. Communication. I have received very positive feedback from those who attended. Your ability to communicate with the audience using humor, inspiration, and motivation is outstanding!

Barry, the instrument you used to identify the leadership and communication style of each participant was very accurate. Having gained a better understanding of our styles will enable us to communicate more clearly with our team, and more importantly, our customers.

It is without reservation that I recommend you as a speaker, trainer, and consultant.

Sincerely,
