Dear Sir or Madam,

I had heard positive feedback regarding Barry's abilities as an excellent facilitator in leadership group development. In 2004 Barry worked with me and 6 of my managers. We needed assistance in team building and leadership development.

Barry took the time to help us know each other better and to work with each others strengths and weaknesses. Our goal was to create better communication. Some of the topics were: creating openness, listening with empathy, encouraging feedback, showing appreciation and ways that effective leaders communicate regularly.

The team learned much, and appreciated Barry's style. We were definitely a stronger team after we worked with Barry. I would highly recommend him for leadership development training, problem solving, and general team building.

Sincerely

**Margie Butler
